PERPETUATION RECORD: (Describe work done to perpetuate or preserve the existing monument or position)

South 1/16 corner between Section 3 and Section 4; A stone was set and referenced at this corner in 1884 by M.H. Buskirk, but no evidence was found of the stone or the referenced trees. A 3 inch aluminum monument with cap stamped "S1/16 S.4|S.3 T7N R1E 1984" was found and accepted as the 1/16th corner. This monument was established by Ken Anderson of the U.S. Forest Service in 1984. The land corner record and reference ties for this monument are found in the office of the Hoosier National Forest - U.S. Forest Service, Mr. Anderson's notes were also provided to BRG. A Corp of Engineers 3-1/4" brass disc set in the top of a 0.5 feet diameter concrete cylinder was found North 32 degrees 39' 16" East, 17.21 feet. A 5/8" rebar with plastic cap stamped "Graham PC 9800014" was found North 00 degrees 39' 48" West, 13.96 feet. Both monuments are located on the East-West Monroe Lake Fee line. The Graham rebar is located at the intersection of the Fee Line and the Section Line. Graham's 2000 survey accepted the U.S. Forest Service monument set by Ken Anderson in 1984 as the South 1/16th corner, while Doug Curry's 2008 survey accepted the Corp of Engineers Fee Line monument as the South 1/16th corner.

Section: 4	Prepared By: BRG	Date: 12/2011
